Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

The numbering of claims is not in accordance with 37 CFR 1.75(f) which requires that if there are several claims, they shall be numbered consecutively in Arabic numerals. Misnumbered claims 23, 34, and 35 have been renumbered 34-36, respectively according to 37 CFR 126. As such, claim 34 is directed to a body oil, claim 35 is directed to a face cream, and claim 36 is directed to a hand lotion.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13 and 16-25, drawn to methods for formulating an essential oil based composition, classified in class 424, subclass 725.
- II. Claims 14-15, drawn to a system and apparatus for formulating a composition comprising a means for accomplishing each step, classified in class 196, subclass 155.
- III. Claims 26-36, drawn to compositions comprising essential oils, classified in class 424, subclass 725.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process

Art Unit: 1617

(MPEP § 806.05(f)). In the instant case compositions comprising essential oils can be made without an analysis of the individual that will be using the essential oil.

Inventions II and III are related as apparatus and product made. The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be made by another and materially different apparatus (MPEP § 806.05(g)). In this case the product as claimed can be made by another and materially different apparatus in that no apparatus is required to make a composition comprising essential oils.

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process such as performing an analysis of an individual or calculating a value from the analysis can be practiced by hand.

Because these inventions are distinct for the reasons given above and the search required for each group is not required for the other groups such that the extra search constitutes a burden on the examiner, restriction for examination purposes as indicated is proper.

Claims 1-36 are generic to a plurality of disclosed patentably distinct species comprising primary essential oils. The large number of compounds meeting the

limitations of an essential oil constitute a burden on the examiner. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. By single species is meant a single essential oil.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Willis whose telephone number is (703) 305-1679. The examiner can normally be reached on alt. Mondays and Tuesday to Friday (9am-6:30pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan can be reached on (703) 305-1877. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9306 for regular communications and (703) 872-9307 for After Final communications.
